

Adapta Flex™

*From head to toe,
the most advanced
comfort technology
on earth.*

***The Memory Foam that adapts to your body
for a custom fit and maximum support.***

AdaptaFlex™ is a superior high density foam with a combination of softness and resilient support that makes it ideal for use in mattresses, pillows and a wide range of furniture.

Designed to respond to both body temperature and weight, AdaptaFlex's advanced memory foam molds naturally to fit every contour of your body. It absorbs and distributes pressure like no other foam. And its slow recovery properties ensure it returns to its original shape, resulting in a better mattress, a more comfortable pillow and a superior piece of furniture.

AdaptaFlex™ . Your first choice in Memory Foam.

- Molds Naturally to Body
- Superior Comfort and Support
- Therapeutic Relief for Aches and Pains
- Temperature Sensitive
- Environmentally Friendly
- Reduces the Tossing and Turning that Leads to Insomnia
- Long Product Life
- Hypo-allergenic
- Superior Energy Absorption

For exceptional quality and value in every product application.

From mattresses, toppers and pillows to convoluted rolls and furniture wrap, AdaptaFlex not only adapts itself to your customer's body but also to your exact manufacturing and fabricating needs.

AdaptaFlex 400

Density 4.0 lbs +- 10%
IFD 25% 10 +-2
Slow Recovery Visco

AdaptaFlex™ meets all Cal 117 requirements.

Energy Absorption and Pressure Distribution

AdaptaFlex™ with Superior Energy Absorption

In all "force and motion" testing in our research and development labs AdaptaFlex came out ahead of the competition, translating into premium comfort for your customers.

Our Advanced CO₂ Process: The Natural Choice

How do you produce foam of the highest quality and consistency without harmful emissions? At Flexible Foam, we helped pioneer the use of carbon dioxide in foam manufacturing. Quite simply, CO₂ is the most highly developed, environmentally friendly foaming process ever created.

Why is CO₂ Superior?

The CO₂ process provides a highly consistent product without compromising tear or tensile strength. That results in better support, higher cell integrity and longer life. And your customers will notice the difference because it is softer to the touch.

We're totally committed to the CO₂ process... and have implemented the technology in all of our plants so you can be assured of the same consistency no matter where you order.

Find Out More

FlexGuard™ Keeps it Fresh

AdaptaFlex is treated with FlexGuard™, an anti-microbial agent that guards against bacterial odors and resists mildew, mold and algae.

Flexible Thinking Since 1950

Founded over 50 years ago, Flexible Foam Products Inc. is a privately owned, customer-driven company that specializes in manufacturing superior quality foams for use in the most demanding design and industrial applications.

Our Flexible Thinking™ means creating solutions tailored to meet key customer needs. It means having state-of-the-art research and development resources and quality assurance systems to ensure every product meets or exceeds customer expectations. And it means a continuing commitment to offering innovative products and enhancements while maintaining our longstanding reputation for value.

Flexible Thinking...to Fit Your Needs™
